

Thinking About We, The Ark

What is your favorite wild animal? (You can pick two if you want!)

In this activity, you will draw on your powers of observation, creative and analytic perspective, and descriptive vocabulary to share your thoughts about the repurposed paper collages of endangered animals in We, The Ark.

In a few words or a sentence, share something about each collage in this exhibition. (For instance, what do you enjoy / see / feel / question / want to comment on?) Or you can share some background knowledge that you have about this animal or a personal connection to this animal.
